Zhexiang (Bruce) Li

bruceli@ucla.edu | +1 (831) 239-2728 | Los Angeles, CA | Website | GitHub | LinkedIn

Internship availability: June 13 - September 17, 2027

Education

University of California, Los Angeles Sep 2026 - Jun 2028 (expected)
M.S. in Computer Science

University of Southern California May 2026
B.S. in Computer Science; GPA: 3.76/4.00; Viterbi Dean's List

Technical Skills

Languages: Python, C/C++, JavaScript/TypeScript, SQL
AI/ML: PyTorch, Triton, LLM workflows, retrieval, multimodal inference, recommendation systems
Development: FastAPI, Next.js, Supabase, Linux; automated testing and static type checking

Experience

Graduate Researcher | Health Intelligence Lab, UCLA Aug 2026 - Present

- Built patient-disjoint MetaboNet benchmarks and data audits for multimodal diabetes models; compared glucose forecasts at 30/60/120-minute horizons with Prof. Yuzhe Yang.

AI Engineer Intern | PMAOS / Next Big Seek Jul - Aug 2026

- Designed user-video interest propagation, multi-timescale exposure budgets, and fatigue controls; validated with **629 tests**, **34 contract checks**, and strict Mypy across 438 source files.
- Built **11-language** audio-visual inference with conflict-aware abstention; passed 139 Python tests and C build gates for Cortex-M3 and ARM926EJ-S.

Full-Stack Engineer | Terlingua Threads (Remote) Jan - May 2026

- Integrated Shopify pages and Google Maps features; improved responsive behavior, accessibility, SEO, and maintainable content structures.

AI Engineer Intern | Piezolab Medical, Lake Forest, CA Jun - Aug 2025

- Built LLM-assisted ingestion, cleaning, and clustering for **5,000+ medical documents**; developed agent workflows and acceptance tests for quality-of-care and vascular-care research.

Application Engineer Intern | Synaptics, San Jose, CA Jun - Aug 2023

- Validated product firmware and connected ESP32 I2C sensors to Alibaba Cloud using MQTT, supplying sensor data to internal dashboards.

Selected Projects

AI Doctor WeChat | FastAPI, knowledge retrieval 2026

- Integrated WeChat and web workspaces with FastAPI and knowledge retrieval for clinical teaching, clinician/assistant collaboration, and patient intake.

Fridge Manager | Next.js, Supabase 2026

- Built meal and grocery planning from inventory, leftovers, dietary preferences, and cooking time; published the application at howtoeat.food.

AI Business Card Hub | iOS, vision parsing, OCR 2026 - Present

- Built vision-first contact extraction with OCR fallback, multi-photo review, bilingual records, and people/company search. Code

Selected ML Research

- **Efficient Attention via Pre-Scoring** (first author; under review): implemented Triton key-selection kernels and compared with HyperAttention and LevAttention. Paper
- **MedTokenBudget** (preprint): built lesion-supervised token routing with budget, diversity, and distillation objectives; evaluated lesion retention on ISIC 2019. Paper
